Commissioner for Patents

This correspondence is in response to the papers filed 10/5/05.

The request to correct the inventorship of this nonprovisional application under 37 CFR 1.48(a) is deficient because:

There is no request to correct the inventorship that sets forth the desired inventorship change as required by 37 CFR 1.48(a)(1), and an oath or declaration by each actual inventor or inventors listing the entire inventive entity has not been submitted.

Applicant filed a paper entitled "Petition for Correction of Inventorship under 37 C.F.R. 1.48(a)." This paper has a single paragraph with a statement that the error in inventorship occurred without deceptive intention. This paper does not clearly set forth the requested change to the inventorship.

Applicant is reminded that MPEP 201.03 states that "An oath or declaration under 37 CFR 1.63 by each actual inventor must be presented. While each inventor need not execute the same oath or declaration, each oath or declaration executed by an inventor must contain a complete listing of all inventors so as to clearly indicate what each inventor believes the appropriate inventive entity." The declaration filed 10/5/05 contained a listing of four inventors but only the signature of two inventors.
